Meeting of the Minds

Since it was founded, Meeting of the Minds has been dedicated to a singular proposition: bring together a carefully chosen set of key urban sustainability and technology stakeholders and gather them around a common platform in ways that help build lasting alliances. We believe that such a platform is a vital ingredient for smart, sustainable and equitable urban (re)development strategies.

Meeting of the Minds focuses on the people and initiatives at the bleeding edge of urban innovation. Through our blog, magazine, webinars, monthly meetups, workshops, roundtables, and our annual summit held each fall, we invite international leaders from the public, private, non-profit, academic and philanthropic sectors to identify innovations that can be scaled, replicated and transferred from city-to-city and sector-to-sector.

Among the thousands of international leaders who participate in the Meeting of the Minds network are innovators scaling-up practical urban solutions in infrastructure, policy, design, equity, technology, energy, mobility, water, finance, and more.
