PILOT PROJECT

Surplus Food Network

This pilot projects exchanged experiences on how to reduce food waste while strengthening service delivery and expanding citizens’ participation. A special focus was made on citizens’ education for a better use of surplus food.

Goals

• Generate, from the exchange of learning, how to design policies to make good use of food waste.
• Design methodologies to increment citizens’ participation in fight against food waste.
• Discuss and explore innovative methods of food management.

Calendar

• Workshop and technical visit in Quito (October 2-5 2018)
• Final Workshop and technical visit in New Taipei (August 27-29, 2019)
