

First BRLC General Assembly

02 Dec. 2018

The First BRLC (Belt and Road Local Cooperation) General Assembly will review the past achievements since establishment, approve BRLC Constitution, organization structure and leadership, and formulate the future work plan. The back to back Seminar on “Artificial Intelligence Facilitates Urban Governance” will bring together government officials, stakeholders and experts from all over the world to exchange ideas and experience on the application of artificial intelligence, big data and the ‘City Brain’ to forge partnerships for mutual development.

For further information, please contact ms. Agnès Bickart, senior manager for institutional relations & asia portfolio.
