UCLG World Congress - World Summit of Local and Regional Leaders

11 Nov. 2019
15 Nov. 2019

The 2019 gathering will be the first UCLG Congress coinciding with the implementation phase of important global policies such as the New Urban Agenda, the 2030 Agenda and the Paris Agreement. It will be the opportunity to present progress in the implementation of the SDGs and their impact at local level, at the same time allowing us to evaluate the evolution of the role of local and regional governments in the international agenda.

The *UCLG World Summit of Local and Regional Leaders* will be the place to discuss about the challenges of the metropolises of the future.

If you are going to Durban next November, **don't miss the activities that bring the metropolitan perspective** to the largest gathering of local & regional governments!
