First meeting of the Observatory Steering Committee on Subnational governments Finance and Investment

17 Nov. 2017
www.uclg-localfinance.org

First meeting Committee of the Observatory on Subnational governments Finance and Investment. This event will be organized by UCLG and the OECD.

The Global Observatory on Local Finance aims to:

- Share information on local and regional governments finance and structure, based on a broad statistical study on the state of local finance in 101 countries representing 82% of the world population and 87.5 of the world GDP.
- Present local and regional governments with tools adequate to financial means and capacities.
- Raise the international profile of UCLG members and contribute their perspective to global debates on financing development and supporting fairer distribution of national revenues;
- Promote dialogue and partnership between local governments and national governments, international institutions, and academics.
