Guiyang International Big Data Expo

26 May. 2021
29 May. 2021

Since its launch in 2015, the Big Data Expo has seen five successful runs. In 2017, it was officially upgraded to a national expo. Specialized and market-oriented, the world's first big data-themed expo has become a trendsetter of global big data industries and the most authoritative and "international" industry sharing platform.
