SHRDC online training: MITI Mexico City on Risk reduction management

24 Nov. 2021
15 Dec. 2021

Until last year, Seoul Human Resources Development Centre (MITI Headquarters) organised face-to-face training courses focused on a specific topic in which officials from Metropolis member cities participate in face-to-face classes and field visits. Due to the COVID-19 crisis, SHRDC decide to organize 3-4 online events with groups of 15 participants for Metropolis members under different themes depending on the interest of the local government participating in the training.

The online training to be held for Mexico City will be on the theme of Risk Reduction management.
