Summer Academy on EU Economic Local & Regional Development: Policies, Practices and Prospects

25 Jun. 2018

This Summer Academy aims to equip you with a comprehensive understanding of the regional/urban policies and the economic and emerging development issues in the EU, as well as providing a clear overview of the policy instruments and practical formulas in place to strengthen regional/local competitiveness and growth. The complexity of the system in a globalised world will be explained in an accessible manner, thus also allowing those not familiar with the topic to enhance their knowledge and know-how.

Registrations before: 18/06/2018
