Call For Photos: Growing With The Cities

29 Apr. 2022
12 Jul. 2022

To celebrate the 10th year of the Guangzhou International Award for Urban Innovation, the Secretariat of Guangzhou Award is looking for photos that capture **the course of urban development in cities**. The selected entries will be displayed at the Exhibition on the 10th Anniversary of the Guangzhou Award.

The motive that moves Growing With The Cities is that **cities are thickly inhabited by memories**. The process of the city development has been inscribed into the urban landscape: the renovation of an old build, the launch of a new railway or the creation of a green space, are all part of this evolution. Guangzhou asks their participants **what are the changes to their cities and how have you been involved in these changes?**
