Gillian Dick – Spatial Planning Manager
Development Plan Group, Glasgow City Council
But what is a Nature based Solutions?

It’s about a lot more than Biodiversity
What are nature-based solutions?

It’s about a lot more than Biodiversity

1. Does it use nature/natural processes?

2. Does it provide/improve social benefits?

3. Does it provide/improve economic benefits?

4. Does it provide/improve environmental benefits?

5. Does it have a net-benefit on biodiversity?

Think about Place

“Dull, inert cities, it is true, do contain the seeds of their own destruction and little else. But lively, diverse, intense cities contain the seeds of their own regeneration, with energy enough to carry over for problems and needs outside themselves.”

*Jane Jacob*

"Town Planning is not mere place-planning, nor even work planning. If it is to be successful it must be folk planning. This means that its task is not to coerce people into new places against their associations, wishes, and interest, as we find bad schemes trying to do. Instead its task is to find the right places for each sort of people; place where they will really flourish

*Sir Patrick Geddes*
