

# INTRODUCTION ON SHRDC INTERNATIONAL TRAINING PROGRAMS

The Seoul Human Resource Development Center (SHRDC) was established in 1962 as the educational training organization for Seoul city officials directly under the Seoul Metropolitan Government (SMG). Based on citizen-centered administrative philosophy, SHRDC strives to educate and train “Future-oriented city officials as the professionals who can serve and communicate with citizens”.

SHRDC started international training program for foreign city officials in 2008 with the inauguration of the Asian center of Metropolis International Institute(MII). With the Successful operation of the MII Asian center, SHRDC hosted the headquarter of the Metropolis International Training Institute (MITI) in 2013 and inaugurated the MITI headquarters in 2014.

With the outbreak of the COVID-19 pandemic in 2020, the center temporarily suspended invitation-based offline international training programs. During the pandemic, SHRDC has further widened its arena of international training programs to online and reached to accumulated 487 participants from 71 cities over 3 years.

In international training as well, digitization and online non-face-to-face mode has become the new normal. However, offline programs are still preferred over online ones, especially in international urban training. Because offline training allows more empirical training experiences such as field trips and in-person discussions.

To this end, SHRDC successfully reopened and resumed invitation-based offline international training programs in the latter half of 2022, and will expand its volume in 2023. Since 2008, SHRDC has invited more than 2,700 foreign city officials to more than 170 offline and online international training programs to share urban problem-solving knowledge and urban development practices in various fields.

## 2023 MITI SEOUL HQ Offline Programs Outline

No.	Month	Mode	Target Officials	Theme/Field	Note
1	Oct	Offline	Foreign Officials of Local Governments & Cities	Digitalization Smart City	Open
2	Nov	Offline	Foreign Officials of Local Governments & Cities	Sustainable Urban Mobility	Open

In 2023, SHRDC as the MITI Seoul HQ will provide two open enrollment offline training programs who have completed prerequisite SHRDC online training programs. Digitization and online non-face-to-face education has become common. Yet, offline training programs are still preferred over online ones, as offline training allows more empirical training experiences such as field trips and in-person discussions. Therefore, the training program is designed to ensure organized linkage between online and offline training modes making self-paced online training a prerequisite to the participation of offline training.

## Offline Program Participants' Requirement, Qualification & Selection Criteria

### ■ Participants' Requirement and Qualification

- Managerial-level public officials in a related field to the training theme
- Officials recommended by the head(i.g. mayor) of a local government
- Officials with a good command of English(selection interview will be conducted)
- Legally eligibility to enter Korea
- Officials who have never participated in training programs organized by both SMG & SMG affiliated organizations for the last 5 years
- Completed the prerequisite SHRDC online training course from 2020 to 2023\*

\* For those who did not complete the SHRDC online training course from 2020-2023, the opportunity to join online course will be provided for selected final participants.

\* English interview will be conducted real-time zoom meeting, but it can be replaced submitting short recorded video clip considering time difference.

### ■ Selection Criteria

- Selection criteria should be applied to each city at SHRDC's sole discretion.
- SHRDC will reserve all rights with regards to applicants' city paper and other documents submitted to SHRDC for the training program.
- Gender balance will be considered in the selection process.

## Sustainable Urban Mobility Offline Training Program

SHRDC/MITI Seoul Headquarters

4 Days Training

### Program Outline (All programs will be delivered in English)

Target	Foreign Local Government and City Public officials in the respective field
Training Period	20 <sup>th</sup> November – 25 <sup>th</sup> November 2023
Venue	Seoul Human Resource Development Center(SHRDC)
Objective	<ul style="list-style-type: none"> <li>To build capacities on sustainable mobility for local gov. and city public officials</li> <li>To establish a platform to exchange in-depth learning in the area of sustainable mobility and urban transportation.</li> <li>To encourage city-to-city cooperation in setting up the sustainable mobility strategy by sharing the best practices and its experience</li> </ul>
Method	<ul style="list-style-type: none"> <li>Lectures; Seoul’s Transportation Policies, Strategies etc.</li> <li>City presentations of the participants and discussions</li> <li>Study visits</li> </ul>

### About the training program

This training will share Seoul's best practices and policies for Sustainable Mobility and transportation.

The training is targeted at the participants who have completed prerequisite relevant online training on Sustainable Mobility and transportation. The training will focus on the in-depth lecture on online e-learning. Also, the training will share the participants' cities' best practices and policy cases while experiencing hands-on visits to various Seoul's Sustainable Mobility and transportation.

### About Sustainable Mobility

Sustainable mobility will be an alternative narrative for the rapid agglomeration and population growth in metropolitan cities jointly with pre-existing car-oriented urban planning are at the heart of the challenges cities face.

Many metropolitan cities are coping with urban transportation and mobility challenges such as an increase in the number of private cars, traffic congestion, pollution, time, and energy consumption. As an alternative, more implementation and adaptation to sustainable transportation and mobility could make the quality of life in metropolitan urban areas higher.
