

Asian metropolitan report

Publication date: January 23rd, 2020

Deadline for submissions: February 14th, 2020 – 14:00 CET

Public announcement of selected applicant: February 21th, 2020

Project timeframe: February 28th – July 15th, 2020

A. Background

Since its launch in 2016, the **Metropolis Observatory**, a project sponsored by the Metropolitan Area of Barcelona, has been providing frameworks to include the metropolitan perspective in urban governance. The project is structured into a collection of issue papers (so far with nine editions, and four more planned for 2020), which cover various urban living trends based on metropolitan perspectives, and into a **system of metropolitan indicators**, which compare objective data about metropolitan spaces around the world.

The current 38 metropolitan indicators result from pioneering comparative research on 58 metropolitan spaces (where 69 Metropolis members operate) and unleash new empirical insights, comparable across jurisdictions, about metropolitan realities across the world. Grouped into the categories that make up the Metropolis vision (governance, economic development, social cohesion, gender equality, sustainability and quality of life), the indicators were researched between 2018 and 2019 by the team of LSE-Cities, and since June 2018 can be freely accessed online.

Considering the diverse cultural realities and situations that exist in different regions of the world, and understanding that global comparisons, although valid for overall benchmarking, may generate some distortions, the Metropolis Secretariat General decided to build on the data provided by the system of metropolitan indicators and publish specialized reports analyzing the trends of each major continent separately (Africa, Americas, Asia and Europe). The forecast is to launch one regional metropolitan report per year.

In November 2019, the first issue of the series, the [African metropolitan report](#), was published, seizing the occasion of the last UCLG Congress, held in Durban. This year, seizing the 13th Metropolis World Congress in Guangzhou, the second edition of the series will be dedicated to the Asian continent.

With the present Terms of Reference (TOR), the Metropolis Secretariat General opens a call for tenders to carry out the full process of research, analysis and elaboration of the contents of the [Asian metropolitan report](#).

B. Target audience

Private or public institutions, universities, think tanks, consultancies, groups of experts, academics, or individuals with proven experience in the analysis of urban development and governance trends, and specific knowledge of their dynamics and implications in the Asian continent.

C. Report structure and contents

Taking as a reference the structure of the African metropolitan report, the Asian metropolitan report must feature the contents below:

1. Index

2. Foreword

Signed by the Metropolis Secretary General

3. Executive summary

4. Overview

5. Background of Asian metropolization

This section analyses the situation of Asia in the global context of the planet's urbanization, as well as incorporates the characteristics of the continent and identifies its specific metropolitan trends. It provides insights into how the urbanization patterns of the region influence metropolitan governance models and vice-versa. Furthermore, it indicates to which extent the existing models of governance contribute to the implementation of and have an impact on global agendas, especially the 2030 Agenda for Sustainable Development.

6. Analysis of metropolitan indicators in Asia

*This section provides the results of the **interpretation and analysis** of the data provided by the system of metropolitan indicators in the continent, following the structure of five out of six categories in which the metropolitan indicators are grouped:*

- *context and governance*
- *economic development*
- *social cohesion*
- *environmental sustainability*
- *quality of life*

Gender equality, which appears as a separated category of the full set of metropolitan indicators, must be incorporated in the report into each of the five categories mentioned above, in order to achieve tangible gender mainstreaming across the research process. Complementary data on gender mainstreaming for the metropolitan indicators is

currently being mined and will be facilitated by the Metropolis Secretariat General to the author(s) within the project timeframe.

The analysis must include **at least the 28 metropolitan spaces** covered by the Metropolis system of metropolitan indicators:

	Metropolitan space	Related Metropolis members
1	Amman	Greater Amman Municipality
2	Bangkok	Bangkok Metropolitan Administration
3	Beijing	The People's Government of Beijing Municipality
4	Delhi	National Institute of Urban Affairs
5	Guangzhou	People's Government of Guangzhou Municipality
6	Hanoi	Hanoi People's Committee
7	Istanbul	Istanbul Metropolitan Municipality
8	Jakarta	Jakarta Capital City - Province Government, Local Government of Bogor City, Tangerang Selatan
9	Kuala Lumpur	City of Kuala Lumpur
10	Mashhad	Municipality of Mashhad
11	New Taipei	New Taipei City Government, Taipei City Government
12	Seoul	Seoul Metropolitan Government, Goyang City Government, Gyeonggi Provincial Government, Incheon Metropolitan City
13	Shanghai	Shanghai Municipal People's Government
14	Tehran	Municipality of Tehran, Karaj Municipality
15	Baghdad	Mayoralty of Baghdad
16	Beirut	Municipal Council of Beirut
17	Bopal	Bhopal Municipal Corporation
18	Busan	Busan Metropolitan City, Ulsan Metropolitan City
19	Chongqing	Chongqing Municipal Government
20	Gaziantep	Gaziantep Metropolitan Municipality
21	Hangzhou	Hangzhou Municipal People's Government
22	Harbin	Harbin Municipal People's Government
23	Hyderabad	Greater Hyderabad Municipal Corporation
24	Kathmandu	Kathmandu Metropolitan City
25	Lahore	Lahore City District Government
26	Ramallah	Ramallah Municipality
27	Surabaya	Surabaya City Government
28	Tabriz	Tabriz Municipality

	Indicators available at indicators.metropolis.org
	Indicators to be disclosed by the Metropolis Secretariat General by March 2 nd , 2020

If deemed necessary, the author(s) may expand the analysis to other Asian metropolises, preferably to spaces where there is the presence of a Metropolis member¹.

*To **substantiate the analysis and relate the indicators to actual practices**, it is strongly recommended that the report presents examples of cases (projects or policies) from Metropolis members – preferably case studies published on the [use platform](#).*

Moreover, because of the diversity of Asia as a major continent, it is recommended that the analysis identifies trends in sub-regions and compares them, observing the following distribution:

- **East and Northeast Asia:** Beijing, Busan, Chongqing, Guangzhou, Hangzhou, Harbin, New Taipei, Seoul, Shanghai.
- **Southeast Asia:** Bangkok, Hanoi, Jakarta, Kuala Lumpur, Surabaya.
- **South and Southwest Asia:** Bhopal, Delhi, Hyderabad, Kathmandu, Lahore.
- **Middle East:** Amman, Baghdad, Beyrouth, Gaziantep, Istanbul, Mashhad, Ramallah, Tabriz, Tehran.

7. Conclusion

Based on the findings of the report, this section should provide recommendations for metropolitan governance and development in Asia.

8. Appendices

- Bibliography
- List of metropolitan indicators (content provided by the Metropolis Secretariat General)

D. Deliverables* and deadlines

1. First draft of the Asian metropolitan report, following the structure detailed in section C (text only). Deadline: April 15th, 2020
2. Second draft of the report, indicating the graphs, grids and images to be used. Deadline: May 15th, 2020
3. Final text of the report (maximum: 20.000 words). Deadline: July 15th, 2020
4. Folder of graphs, grids, and images that provide visual support to the text in high resolution, including respective reference to authorized sources. Deadline: July 15th, 2020

*** All deliverables must be submitted in English**

E. Editing, layout and release

¹ Metropolis members from Asia not yet included in the system of metropolitan indicators are: Ahvaz, Changchun, Changsha, Chengdu, Colombo, Daegu, Daejeon, Dalian, Diyarbakir, East Kalimantan, Faisalabad, Fuzhou, Gujranwala, Gwangju, Haikou, Isfahan, Jilin, Jinan, Kaohsiung, Kunming, Male', Nanjing, Nanning, Shenzhen, Shiraz, Taichung, Tianjin, Wuhan, Xi'an, Xiamen, Yiwu, and Zhengzhou.

The Metropolis Secretariat General will be in charge of editing and of the layout the final publication in order to comply with the coherence of the collection, and will provide feedback to the author(s) during this process. Appropriate acknowledgments will be given in the final publication to the parties involved. All related files must remain confidential until the release of the final publication, which will be presented at the 13th Metropolis World Congress in Guangzhou, from October 27 to 30².

F. Guidelines for tenders

All applicants must submit their tenders in English containing the following elements:

- Individual CV(s) of the professional(s) involved
- Proof of previous research experience on Asian metropolises
- Work plan considering the deliverables and deadlines specified in section D
- Methodology to achieve the expected results
- Budget up to EUR 15,000.00 (VAT included, if applicable)

Submissions must be sent via email, **no later than February 14th, 2020 14:00 CET**, to [Ms Silvia Llorente](#).

G. Selection criteria

In addition to the pertinence of proposals in accordance with the specifications of the TOR, the following aspects will be considered:

- Gender parity in the research team / female individual applications
- Professionals from low income or lower-middle income countries, according to the current World Bank country classifications ([click here](#) for further reference).
