

Urban Transportation Training Program

METROPOLIS International Training Center at Seoul HRD Center

15 - 23 March 2016

■ Introduction

In 2004, Seoul Metropolitan Government made significant reforms in its transport policies such as reorganization of public bus services, introduction of exclusive median bus lanes, shift from private to quasi-public bus operation and implementation of an integrated transit-fare card (dubbed T-money) system.

The positive results of reforms include a sharp increase in bus ridership, improvements in the speed of buses and other vehicles due to the implementation of exclusive median bus lanes, lower cost burden for transportation services, better air quality, and greater aesthetic value of the city.
